
MARKETING PROJECT MANAGER

ORGANISATION

Legacy out. Agility in. It is the only way forward for the financial industry and the driving principle behind Ohpen: a ruthlessly effective, cloud-based core banking engine. Built by former retail bankers to administer retail investment and savings accounts, Ohpen liberates banks from their legacy systems and processes.

We have spent the last years overhauling all core banking processes, coded them all over again and deployed them in the cloud. By doing so we have effectively created the world's first cloud-based core banking engine. And now we want you to let the world know about it.

Everyone knows you're the go to person if it comes to deliver world class Marketing projects. We want the world to know about Ohpen; what we do, what we stand for, what we're good at – and you're the one to tell them. Taking this opportunity means being part of something special, something that's never been done before and truly revolutionary. On a global level, your Project Management skills and Marketing experience will be seen. You're the personification of creativity and execution power!
